Dear FCC:

I use TracPhone so as to pay only for airtime used, as cell phones don't work in our town, but I want one for use in going to the next town to shop and in any travels, in case of emergency. We are senior citizens, and don't have that much money. Such a charge on us is absurd and hurtful!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
